## PRINCIPAL'S MESSAGE

To the Graduate:

We are living in an uncertain, technical, and complex world. It is an age in which you and others like you have unlimited opportunities to develop the best and brightest civilization the world has known.

Remember that learning from textbooks alone does not provide an education which will adequately prepare you for life in this highly technical and complex world of ours. So, seize every opportunity to better prepare yourself for this wonderful age.

Your Principal,
